DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 6 and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re Claims 6 and 7 are hybrid claims.

Allowable Subject Matter

3. Claims 1-5, 12-14, 15-17, 23-24 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Prior art fails to teach a master controller that receives control data segments from subtending switch modules during consecutive time slots, each time slot being designated to a respective switch module. When the master controller fails to detect a time-counter-reading of a switch module, the master controller sends a command to the controller of the switch module instructing it to send a continuous stream of its time-counter readings.
